

Ben Rickel

Software Developer

Skilled software developer with two years experience in developing user-friendly and scalable software. Proficient in Java with a strong foundation in SQL, JavaScript, CSS, and HTML. An excellent teammate and communicator who enjoys collaboration. Dedicated problem-solver committed to delivering maintainable and efficient code.

EXPERIENCE

Software Developer

November 2021 - Present

HOM Furniture, Coon Rapids, MN

- Develops and maintains internal and customer-facing applications and commerce websites handling high traffic volumes using Java, Spring Boot, and Maven.
- Collaborates with teammates to design efficient APIs.
- Writes SQL queries to maintain and audit on-prem databases.
- Uses templating and design languages such as Thymeleaf, CSS, and jQuery to deliver user friendly experiences.
- Conducts thorough testing and debugging of code to ensure high quality and error-free deployments.
- Implements encryption and Spring Security authentication to safeguard sensitive customer and employee data.
- Migrated existing applications from obsolete versions to secure dependencies and libraries.
- Plans and accurately estimates project specifications.

Musician, Producer

May 2015 - Present

Freelance

- Performs live shows, tours, and festivals in venues ranging from local to national and international markets.
- Manages itinerary, logistics, and financial guarantees for both independent and group bookings.
- Promotes bookings, media, and merchandise to drive sales, growth, and influence for independent brands.
- Records instrumentation to fulfill contractual obligations.

Bartender, Server

June 2011 - October 2020

Pizza Luce, Hopkins, MN

- Managed high-pressure situations by multitasking with efficiency and composure.
- Demonstrated strong communication and problem-solving skills to promptly relay accurate order information between customers and employees.

SKILLS

- Java 7 -17
- Spring Boot
- REST
- Lombok
- SQL
- JPA
- JDBC
- XML
- Maven
- JSON
- GraphQL
- PCML
- Git
- JavaScript
- HTML5
- CSS3
- Thymeleaf
- jQuery
- AJAX
- Bootstrap
- JUnit
- Mockito

TECHNOLOGIES

- IntelliJ
- IBM IS400
- MySQL
- Netbeans
- Sublime
- Postman
- GitLab
- GitHub
- Tomcat
- MobaXterm
- nginx
- Jira
- Confluence
- Slack
- Google Suite
- Windows
- iOS

PROJECTS

- Catalog Engine
- Campaign Manager
- TV Ads Uploads
- Service Request
- Design Board
- CMS
- FACS Integration
- In-Store Shopping
- Sales Dashboard

CERTIFICATIONS

- Web Developer Bootcamp - Java
- Full Stack Development
- Server-Side Development
- Object-Oriented Programming
